~~Careers Mineralogist~~

A mineralogist is a person who

Online Library Careers

Mineralogist

studies minerals, which technically include all naturally occurring solid substances. Most mineralogists study minerals of economic value, such as metals like copper, aluminum, and iron ore, as well as gypsum and clays. They determine their physical and

Online Library Careers Mineralogist

chemical properties, how to efficiently retrieve them from ores, and how to process them.

~~How to Become a Mineralogist |
EnvironmentalScience.org~~

Minerals are truly unique products of the Earth that serve

Online Library Careers

Mineralogist

so many valuable purposes. As a Mineralogist, you understand every component of minerals because you spend your workdays studying them. You identify, classify, and maybe even discover new minerals by performing chemical, heat, and
