~~In Nursing Oxford Science~~

Written by a nurse and a philosopher, *Ethics in Nursing* blends the concrete detail of recurring problems in nursing practice with the perspectives, methods, and resources of philosophical ethics. It stresses the aspects of the nurse's role and relations with others - physicians, patients, administrators, other nurses - that give ethical problems in nursing their special focus.

This complete guide to the ethics of palliative care combines clinical experience with philosophical rigor to provide a comprehensive analysis of this fascinating field. Using relevant case studies, core subjects such as intensive symptom management at the end of life, physician-assisted dying, and palliative sedation are examined from historical, legal, clinical, and ethical perspectives.
