Diabetes management can refer to dealing with short term events such as high and low blood sugar to controlling it over the long term such as by getting to grips with understanding the condition. Diabetes and Employment Guides: Diabetes and Hypoglycemia Diabetes and Hyperglycemia Diabetes Health Guidelines Essential Diabetes Tips What is a Hypo?

Managing Diabetes - Diabetes Management

Read PDF Staged Diabetes Management

Diabetes is a lifelong condition that causes a person's blood sugar level to become too high. There are 2 main types of diabetes: type 1 diabetes – where the body's immune system attacks and destroys the cells that produce insulin; type 2 diabetes – where the body does not produce enough insulin, or the body's cells do not react to insulin; Type 2 diabetes is far more common than type 1.
