A non-healing wound is generally defined as a wound that will not heal within four weeks. If a wound does not heal within this usual time period, the cause is usually found in underlying conditions that have either gone unnoticed or untreated.

Get Free Wounds Not Healed By Time **Reasons Wounds Will Not Heal**

Chronic wounds, by definition, are sores that don't heal within about three months. They can start small, as a pimple or a scratch. They might scab over again and again, but they don't get better.
